XBRL Lite

Available 31 May 2018

The simple solution for your iXBRL submissions

XBRL Lite has been developed by CaseWare Africa to help you stay compliant and submit your financial statements to CIPC in the iXBRL format, regardless of whether or not you are a CaseWare Working Papers user.

This simple and easy to use input sheet allows you to submit the relevant information, in the required layout, in a pre-tagged form, without having to spend time and money redrafting your financial statements.

CaseWare Africa has developed XBRL Lite with ease of use and simplicity in mind, while helping you to remain compliant throughout the process of preparing your iXBRL submission:

Room for customisation

- You can easily add your own information, or
- Add or edit tags in the statements on either new or existing information.

Entering of mandatory information

Pre-tagged sheets into which you can capture information

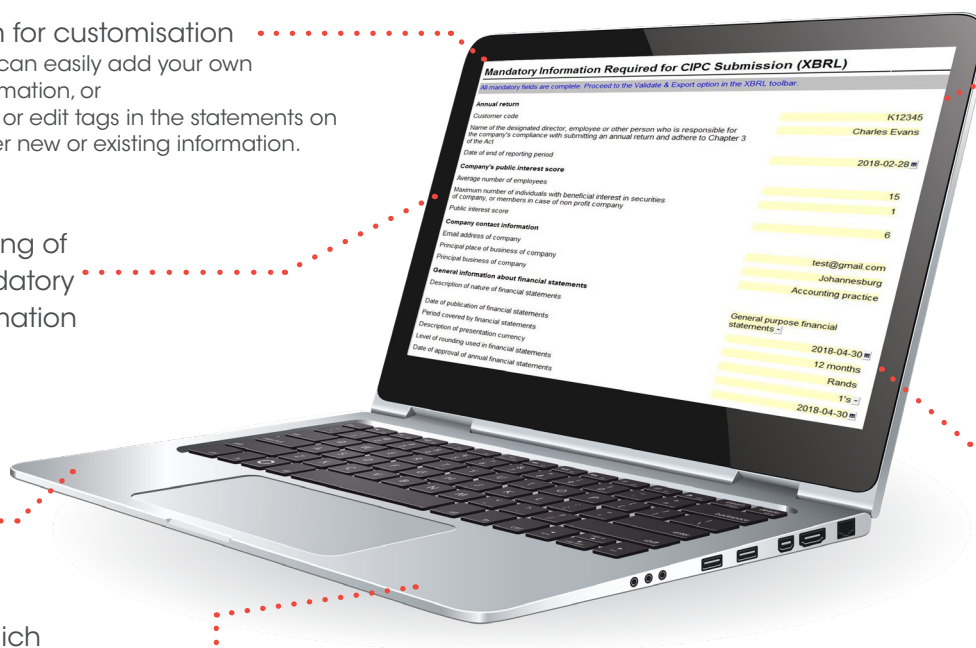

Review tags to show you what has and has not been tagged to ensure a successful iXBRL submission

Reporting on tags for review purposes as an added benefit

Validation and export to ensure upload to CIPC website

* Specifically designed for entities that are not currently drafted in CaseWare Working Papers
